

THE MOBILITY HOUSE

Product Management Intern (6 Months)

Location: Munich

What matters to you is to give people what they need – especially when they are your customers? A natural curiosity in new market opportunities is what characterizes your work? Hey there, let's meet!

WHAT YOU WILL DO

- Scout, design and develop new products and service solutions in the field of electric mobility.
- Analyse the market development and keep track of the competitors.
- Help us create and maintain cooperation with suppliers and business partners.
- Gain first-hand insights into a rapidly growing market and support the development of our future product strategy.

WHAT YOU BRING TO US

- You are currently enrolled at a university and your studies are related to business and economics. Ideally you have already gained first practical experience in the field.
- You have profound knowledge of all major MS Office applications.
- You are a team player and call a “getting things done” attitude your own.
- You are fluent in both German and English.

WHAT YOU CAN EXPECT FROM US

- We are a young, dynamic and multicultural team and this reflects in our work.
- We warmly welcome new faces, value innovative ideas and individual personalities.
- We trust your expertise, challenge your abilities and help you develop your skills.
- We love to celebrate! Join our foosball matches, barbecues, Oktoberfest trips and other activities.
- The internship is paid.

READY TO JOIN US? APPLY NOW!
