

THE MOBILITY HOUSE

## Technical Product Owner Stationary Team (m/f)

**Fulltime**

Location: Munich

Managing innovative solutions for an emission-free future sounds like a mission made for you? Join our technology team and help us to revolutionize the energy markets with stationary batteries.

### WHAT YOU WILL DO

- You collaborate with the developer team, internal/external customers in order to deliver our solution in terms of quality and time.
- You contribute to manage and prioritize new features for the next releases.
- You gather and write user stories, you define acceptance criteria and conduct acceptance tests.
- You contribute to the continuous improvement of our agile processes.

### WHAT YOU BRING TO US

- You have a university degree in any engineering or IT discipline (e.g. Computer Science, Electrical Engineering, Physics, Mathematics, Systems Engineering or an equivalent field of studies).
- Experience in agile (scrum) processes.
- You have a good knowledge of electricity markets.
- Strong sense of responsibility and you like to join a challenging environment.

### WHAT YOU CAN EXPECT FROM US

- You have the opportunity to take on important tasks as part of a highly motivated team.
- We value fair working hours and performance-related pay
- We are a young, dynamic and multicultural team. We highly appreciate new faces and ideas.
- We love to celebrate! Join our BBQs on our roof terrace and other activities.
