

## Implementation Project Manager

### Responsibilities:

- Implement EV charging management solutions in the field
- Guide customer through the implementation process, by coordinating shipments, installation timelines, testing, and commissioning
- Manage inventory, streamline processes, and diligently document processes and outcomes
- Implement projects independently and ensure close coordination with internal and external stakeholders
- Function as the technical point of contact for The Mobility House's customers and partners
- Coordinate with TMH Munich team about implementation processes and procedures
- Travel up to 30% of time to customer sites for installs or troubleshooting
- A little bit of everything – we are a startup

### Requirements:

- Effective team player with a can-do attitude and passion for the environment and electric mobility; we are a very mission-driven company that wants to enable an emission-free future
- Electrical training or a degree in electrical engineering or related field
- Hands-on experience with installing, testing, troubleshooting, and maintaining electrical equipment – ideally in the electric mobility space
- Familiar with current electrical standards in the United States.
- Significant background in network technology or experience with network troubleshooting
- Ability to work well independently and well in a team
- Decisive critical thinker with a desire to learn and attention to detail
- Excellent documentation and communication skills, especially explaining technical ideas to non-technical people
- Organized and able to keep track of various types of responsibilities at once
- Minimum of 3 years of experience

### Preferred Qualifications:

- Certified electrician
- Experience in the automotive or energy industry, bonus points if experience in the electric mobility industry
- Experience with project management in an electrical or related field
- Comfort with uncertainty and sometimes unpredictable construction schedules

### What we offer:

- Good times – we love what we do, work hard, and have fun along the way
- Lots of autonomy and responsibility – you can significantly shape a new venture
- Open feedback culture – we want to grow as people and help each other to do so
- Learning opportunity – this is a young industry and every day you'll gain new knowledge and skills
- Small multi-cultural team that is passionate about The Mobility House's mission

### Competitive Benefits:

- Medical and Dental coverage
- 401k
- Paid holidays

Full time – remote
